### Step 3 - Floor or Wall Mounted

You have the flexibility to customize your bathroom units to suit your style and space. Add a base plinth to create a floor-standing look, or for a more modern and sleek design, you can use the wall brackets to mount the units directly onto your bathroom wall.

**Floor Standing**

**Wall Mounted**

### Step 4 - End Panels & Plinths

Complete your unit combination by adding colour-matched floor and wall end panels. These panels are essential for achieving a cohesive and polished look. See pages 72-73.

**End Panels**

**Plinths**

### Step 5 - Worktop & Basins

If minimalistic is more your style select our Combi Worktop Basin, or you can opt for a Laminate or Solid Surface worktop with a choice of Semi-Recessed & Inline Basins. See pages 74 - 77 for inspiration.

### Step 6 - Handles

Add the perfect finishing touch to your chosen units. Our handles are available in various styles and complementary colour finishes including Matt Black, Brushed Brass, Gun Metal and Chrome. See page 78.

### Step 7 - Mirrors

When designing your bathroom, you can choose between matching mirror cabinets on page 72 or LED mirrors and Cabinets on pages 82 - 115. Both options can elevate your bathroom's functionality and style.

## Ceramics

Our ceramic range goes beyond functionality. Each piece has been carefully designed with comfort, style, and quality in mind.

All of our toilet pans now feature a rimless design for easier cleaning and enhanced hygiene, eliminating the need for a rim altogether.

And whether you need a small or large bathroom basin, you'll be sure to find the perfect bathroom sink for your home in our extensive collection of both traditional and modern styles.

## **RIMLESS** FLUSHING

A must-have for modern homes, Rimless Flushing is the latest innovation in bathroom design loved by many for its improved hygiene, better flushing performance and super-sleek look.

Our range of Rimless Flushing Toilet Pans use a direct flush that propels water around the edge of a smooth pan, offering more effective and water-saving cleaning than conventional flushing systems. With no rim around the bowl, there are no hidden areas for germs or dirt to accumulate making it easier to clean and providing a more hygienic environment.

Rimless Flushing is available now across all Fully Enclosed, Open Back, Back-to-Wall and Wall Hung Toilets.

# DOLOCAST™

Products made of DOLOCAST™ offer a unique appearance. The material gives design flexibility that goes beyond possibilities of all traditional materials.

DOLOCAST™ comes from nature. Its main ingredient is dolomite. Dolomite is composed of calcium magnesium carbonate,  $\text{CaMg}(\text{CO}_3)_2$ . It was formed over 250 million years ago when the Earth witnessed increased volcanic activity. Dolomite sedimentary rocks were covered by layers of magma. High temperatures and enormous pressures recrystallised original minerals. Due to metamorphic processes the dolomite marble gained a beautiful look and hardness.

Today raw materials are sourced from carefully selected certified mines located in EU. Then the rocks are milled and purified.

The outer layer of a product is made of nanocoat, hardened resin with pigment and particles of quartz. It determines the final gloss and smoothness of the surface.

## DESIGN FLEXIBILITY

DOLOCAST™ is a material that liberates creativity. Its extraordinary properties allow for unlimited design possibilities. The material's innovative structure gives freedom of form, therefore countless designs are available.

## DURABILITY

DOLOCAST™ is a unique structure which enables dolomite stone to attain a whole new level of durability in the bathroom. Products remain in a brand-new condition for many years.

## PRECISION IN FORM, EDGES & RADIUSSES

DOLOCAST™ is precise by its very nature. The material enables an extensive range of shapes to be created that frees up the imagination of designers.

## SOUND INSULATION

DOLOCAST™ offers exceptional acoustic absorption. This feature comes from high particle density contained in the material. It prevents the sound of water striking a surface, and so improves living comfort and convenience of use significantly.

## SUPERIOR FINISH

Just one touch and you'll feel the nature inherent in our material. Baths and basins made from DOLOCAST™ are pleasant to the touch and have a smooth finish. They are resistant to even the most extreme conditions due to the inherent strength of the nanocoat surface.

## WARMTH

Products made from DOLOCAST™ maintain an optimal temperature for a long time, they are always warm to the touch and provide unprecedented comfort in the bathroom.
