Ceramics

Our ceramic range goes beyond functionality. Each piece has been carefully designed with comfort, style, and quality in mind.

All of our toilet pans now feature a rimless design for easier cleaning and enhanced hygiene, eliminating the need for a rim altogether.

And whether you need a small or large bathroom basin, you'll be sure to find the perfect bathroom sink for your home in our extensive collection of both traditional and modern styles.

RIMLESS FLUSHING

A must-have for modern homes, Rimless Flushing is the latest innovation in bathroom design loved by many for its improved hygiene, better flushing performance and super-sleek look.

Our range of Rimless Flushing Toilet Pans use a direct flush that propels water around the edge of a smooth pan, offering more effective and water-saving cleaning than conventional flushing systems. With no rim around the bowl, there are no hidden areas for germs or dirt to accumulate making it easier to clean and providing a more hygienic environment.

Rimless Flushing is available now across all Fully Enclosed, Open Back, Back-to-Wall and Wall Hung Toilets.
